May 25  Lorne Wolfe  
Department of Biology, Georgia Southern University  
*Born to Run: The Role of Ecology and Evolution in a Biological Invasion.*

May 26 (Wed.)  Christopher Laumer  
Department of Organismic and Evolutionary Biology, Harvard University  
*Systematics of "Lecithoepitheliata," an enigmatic grouping of Platyhelminthes.*

May 27  Than Hitt  
United States Geological Survey  
*70 years of changes in stream fish assemblages of the Mountain Lake area: revisiting the Burton and Odum survey.*

June 1  Leslie Rissler  
Department of Biological Sciences, University of Alabama  
*Why Mapping Evolutionary Process is Important in the Conservation of Biodiversity.*

June 3  Dawn O’Neal  
Department of Biology, Indiana University  
*Considering the roles of climate change, winter habitat, and immune function in a differential migrant the dark-eyed junco.*

June 8  Katie Burke.  
Department of Biology, University of Virginia.  
*The effects of disease and logging on American Chestnut distribution.*

June 10  REU Proposals – Special long afternoon session: 1:00 - 5:00 p.m.

June 15  Ignacio Moore  
Department of Biological Sciences, Virginia Tech  
*Seasonal reproduction, neuroplasticity, and population divergence in an equatorial bird.*

June 17  Nicki Gerlach  
Department of Biology, Indiana University  
*Extra-pair behavior in female dark-eyed juncos: causes and consequences.*

June 22  Meeting Practice Talks.

June 24  Henry Wilbur  
Department of Biology, University of Virginia  
*Natural History of Mountain Lake Region.*

June 29  Meeting practice Talks.

July 1  Butch Brodie  
Department of Biology, University of Virginia  
>Title TBA.*
July 6    Kathleen Donahue
Department of Biology, Duke University
**Pleiotropy in the wild: Interactions across life stages in an annual plant.**

July 8    Henry Wilbur
Department of Biology, University of Virginia
**Human Ecology of Mountain Lake Region.**

July 13   **Walton Lecture** – Lynda Delph
Department of Biology, Indiana University
**Sexual conflict and sexual dimorphism in a dioecious plant: a tale of two selection studies.**

July 15   **Walton Lecture** – Curt Lively
Department of Biology, Indiana University
**Through the looking glass: host-parasite coevolution and sex.**

July 18 (Sun.)   Meeting Practice Talks.

July 20    Michael Dorcas
Department of Biology, Davidson College
**The Problem of Invasive Burmese Pythons in the United States.**

July 22    Wayne Van Devender
Department of Biology, Appalachian State University
**TBA.**

July 28 (Wed.)   **REU Final Reports I.**

July 29    **REU Final Reports II.**

*Updated: 7 May 2014*
